6 OPERATIONS REPORT

The report provided an update on staff and the current operation of the Crematorium.

The Crematorium and Cemeteries Manager and Registrar presented the report highlighting staffing, cremator and ancillary equipment, BACAS upgrade, project update, internal audit and cremation data.

The Children's Funeral Fund part of the report explained that the funeral services for children under the age of 18 are free at the point of sale, for bereaved parents. Crematorium and burial authority operators are able to claim back any costs associated with a child funeral service from the Government Child Funeral Fund.

It was explained to the Committee that in order to improve bereavement service provision for the parents of deceased children it is proposed that funds claimed back from infant and child services be repurposed to improve the children's section within the crematorium, on an ongoing basis.

AGREED (unanimously) that:

- i) Members noted the report.
- ii) the Committee approved the upgrade of the BACAS system at a cost of £26,820 over 5 years, with the additional cost being financed from existing budgets.
- iii) the Committee approved the use of funds claimed back from the Child Funeral Fund, to be utilised to improve the Child Bereavement Service provision and to provide an update to the Committee in the next 12 months.

7 POND DEVELOPMENT REPORT

The report provided an update on the pond within the memorial gardens.

The Crematorium and Cemeteries Manager and Registrar highlighted that at the previous meeting an objection was made to the removal of the pond feature within the memorial gardens and that a further report be brought to the Committee with regard to the development of the pond.

In light of the objection received from the Committee, research was carried out in order to determine the impact that the removal of the pond may have on families who had chosen to scatter the ashes of their loved ones.

However due to the information relating to the location of scattered ashes being predominantly paper based and relating to scatterings that have taken place over a 60 year period, it was not possible to identify the total number of families affected.

The Committee were updated that the pond had now been fully reinstated with the addition of a waterfall to the rear of the feature, with additional planting in the area to take place in the coming weeks.

AGREED (unanimously) that:

- i) Members noted the report.

8 ANNUAL STATEMENT OF ACCOUNTS 2022/2023

The report provided the annual report and statement of accounts for 2022/2023 showing the Committee's financial position as at the 31 March 2023 and the revenue and capital activity during the financial year.

The Chairman and Finance representative on behalf of the Treasurer to sign off the Annual Report and Statement of Accounts for 2022/2023.

12 EXCLUSION OF THE PRESS AND PUBLIC

Agreed (unanimously) that under section 100A (4) of the Local Government Act 1972, the public be excluded from the meeting for the following items of business on the grounds that they involved the likely disclosure of exempt information as defined in part 1 of Schedule 12A of the Act.

13 NEW CREMATORIUM UPDATE REPORT

Agenda Item 5

Report to: **Mansfield and District Joint Crematorium Committee**

Date: Monday 11th December 2023 (10.00 am)

Director Lead: Mansfield District Council, Sarah Troman, Head of Neighbourhood Services, 01623 463036

Report Summary	
Type of report	Open Report
Report Title	Operations Report
Purpose of Report	This report seeks to provide an update on staff and the current operation of the crematorium
Recommendations	1. That the committee note the report

1.0 Background

The previous report was presented to the committee in September 2023. This report provides the committee with an update on progress since the last meeting.

2.0 Proposal/Options Considered and Reasons for Recommendation

2.1 Staffing

2.1.1 The staffing restructure is currently being finalised and the staff consultation is expected to start before the Christmas period. The restructure focuses on efficiency, cost saving and resilience. The restructure will also address the previous removal of weekend working, which has caused an increase in complaints from families unable to access the Book of Remembrance.

2.2 Cremator and Ancillary Equipment

2.2.1 Cremator 2 has experienced a breakdown and is currently not operating. Repair works are scheduled for January 2024. Reduced capacity is expected until the repair is completed.

2.2.2 A breakdown on cremator three was repaired in the same day but highlighted the need to consider a full re wire of each of the cremators

- 2.2.3 Our current maintenance supplier has been tasked with providing a quote for us to replace the control panels and carry out a full re wire. This was trying to be avoided but in light of the awaited decision regarding the new build crematorium, the work is needed in order to ensure full capacity can be maintained until such time as the future requirements for the crematorium have been determined.
- 2.2.4 £198,000 is currently held in general reserves for the purposes of temporary cremators and this option is being revisited in order to be able to provide a comparison between installing temporary cremators and the required works on the existing cremators. Information regarding the financial options will be delivered during the February committee meeting.
- 2.2.5 Annual servicing is pre planned and scheduled for 2024, in order to carry out preventative maintenance where possible.

2.3 Metal recycling Scheme

- 2.3.1 A donation of £14,000 has been made to John Eastwood Hospice, because of the metal recycling scheme. This is ADC’s nomination. A PR exercise is being carried out in order to support the Hospice with raising awareness of impact that donations have.

2.4 Christmas

- 2.4.1 The Christmas memorial service is taking place on Saturday 9th December. Last years’ service was a success with feedback from families being excellent. Donations from the event will be made to John Eastwood Hospice in line with the charity rotation. Families who attend on the day can send in photos of their loved ones, to be shown throughout the service, and catering is being supplied and donated by a local café. A list of all donors and acts for the event will be published in a press release following the service. The event is a designed to bring families together but also include donations of time from the wider bereavement service team, including celebrants and Funeral Directors, who donate their time to take part in the service.
- 2.4.2 Operations will continue as normal between Christmas and New Year, in order to support the throughput from the local hospitals.

2.5 Cremation Data

- 2.5.1 Cremation numbers decreased during the last quarter. This is being attributed to lower death rates during this period. The last published death rates data suggest a 9% decrease nationally in death rates in the first month of quarter two. While there has not been a significant rise in cremation numbers, in comparison to this time last year, numbers are expected to increase at the end of December and into the new year.

Capital Gross Expenditure	4,640,286	4,723,033	147,867	-4,575,166	55,600

1.1.1 Employee Expenses total forecasted variance £18,259.

There has been an increase due to a voluntary redundancy of a technician post, which is partially offset by the removal of a gardener/technician post from the establishment at the end of September 2023.

Approved changes were also made to the Superannuation and Pension Deficit Lump Sum budget requirements by NCC after the JCC budgets were set.

1.1.2 Premises Expenses total forecasted variance -£15,799.

Following a successful rateable value appeal, the Business Rates budget has been reduced.

The Crematorium combined insurance premium has also reduced in this financial year, contributing to the savings.

The forecast budget for Repair/Maintenance Fixed Plant Cremators has been increased to £140,000 due to a cremator breakdown that needs repairing.

1.1.3 Supplies and Services total for forecasted variance £10,518.

Increased forecasted spend on Cameo Non Abatement fees, software licenses and Wi-Fi telephone lines. This has been partially offset by savings on advertising and reduced demand for organist fees.

Increased medical fees due to a revised throughput estimate from 2,100 to 2,200.

1.1.4 Income total forecasted variance -£95,997.

Forecast for webcasting income has increased due to demand for this service. However, income for organist has reduced due to lower demand

Forecast for cremation fees and medical fees has also increased due to revised throughput estimate from 2,100 to 2,200.

1.1.5 Below Net Cost of Service forecasted variance £83,019.

Due to the above forecast revisions, we are forecasting that to meet the budgeted surplus we need a contribution from the General Reserve of £5,939.

1.1.6 Capital

At September 2023, the capital spend is £55,600.

The original capital budget for the new crematorium development is £4,626,286. The estimated spend for this financial year is currently £37,000.

The budget for this project is discussed in more detail in the Development Report.

Flue ways spend to end of September is £54,120, however the carry forward budget is only £40,000. It is recommended that the budget is increased from £40,000 to £54,120 from the Capital Fund to finance these works, as there is not the facility to fund this from revenue.

Report Summary	
Type of report	Open Report
Report Title	ANNUAL REVIEW OF FEES AND CHARGES FOR 2023/24
Purpose of Report	This report shows the proposed fees and charges to be introduced from 1 April 2024 to 31 March 2025.
Recommendations	<ol style="list-style-type: none">1. That the proposed cremation fee as shown in table 2 for the period 1 April 2024 to 31 March 2025 be approved. The fee proposed for 2024/25 is £969, which is an increase of £46 (5%) on the 2023/24 standard cremation fee. The medical referee fee £18.50 will be added to these proposed standard cremation fees.2. That the proposed standard cremation fees as shown in table 2 for 2024/25 and 2025/26 be approved in principle. The standard cremation fees proposed are: 2024/25 £969, 2025/26 £1,017 and 2026/27 £1,068, being an increase of 5% in all three years. The medical referee fee £18.50 will be added to these proposed standard cremation fees.3. That the proposed fees and charges for 1 April 2023 to 31 March 2024, as set out in Appendix 1 are approved.

1.0 **Background**

1.1 The fees and charges as set out in Appendix 1 show the proposed fees and charges for 1 April 2024 to 31 March 2025.

1.2 The standard cremation fee increase for 2023/24 was 7.5%.

1.3 The options for adjusting fees and charges comprise:

- Increase to cover a general inflationary increase
- Increase to cover a specific inflationary increase
- Increase or decrease to achieve the Committee's priorities
- Change to reflect market conditions
- Change to reflect actual cost of service
- Change to generate additional real income

Where there has been a change in the level of fees and charges, the basis (as per the above list) has been identified in Appendix 1.

1.4 Charges are generally rounded to the nearest 50 pence or £1.

1.5 The types of cremation fees listed in Appendix 1, include only the types of cremation in demand. These still include the option to have either a peak, off peak, weekend or direct cremation.

1.6 The fees and charges put forward have been used in calculating the proposed budgets for 2024/25 and changes to this would result also in changes to those budgets.

1.7 The Consumer Price Index (CPI), which provides the measure for inflation, was at 6.7% at September 2023. The Bank of England Monetary Policy Report stated that inflation has been high in recent years due to a series of global shocks, including the Covid pandemic, the invasion of Ukraine and a fall in the number of people available to work, which meant that employers pushed wages higher to attract applicants. The Monetary Policy Committee expects inflation to continue to fall in 2023, and it will meet the target of 2% in 2025.

1.8 The Bank of England base dropped to a historic low level of 0.1% in March 2020, in response to the Covid-19 pandemic and subsequent national lockdowns. However, since the beginning of 2022, the base rate has been rising again, and is currently at 5.25%, the highest it has been since 2008. The base rate is not expected to decrease again in 2023/24, as the Bank of England is using interest rate rises to try to tame ever-increasing inflation.

1.9 Table 1 below compares the 2023/24 adult standard cremation fees for the crematoria in our region and the number of cremations undertaken in the 2021 and 2022 calendar years. Please note that the number of cremations data are extracts from the Cremation Society of Great Britain web site.

1.5 Following a detailed review of income and expenditure there have been some adjustments made to the budgets which were approved in principle for 2024/25 and 2025/26 by the Joint Committee on 21st December 2022. The main changes are as follows:

1.5.1 Employee expenses have decreased by £17,687 in 2024/25 and decreased by £18,670 in 2025/26. The main decreases are due to an employee retirement in 2022/23, and the removal of that post from the budget from 2023/24 onwards.

1.5.2 Premises expenses have increased by £1,852 in 2024/25 and £13,418 in 2025/26. The main reason for the increase in both years relates to re-lining required on all of the cremators to keep them operational.

1.5.3 The budgets for Transport Expenses have been reduced to £0 in 2024/25 and 2025/26.

1.5.4 Supplies and services budgets have decreased by £1,650 in 2024/25 and £10,800 in 2025/26. The reduction in 2024/25 is due to a reduced demand for the Crematorium Organist. The main reason for the reduction in 2025/2026 is due to the opening of Shirebrook's Crematorium, which is expected to reduce the number of cremations at Mansfield Crematorium by 400 per year. This will reduce the number of Medical Examinations taking place and therefore reduce the fees incurred for this service.

1.5.5 Support services budgets have increased by £2,790 in 2024/25 and £9,019 in 2025/26. This is due to increases in the Central Corporate Overhead charge.

1.5.6 The proposed budget for depreciation is £129,265 in all years. The corresponding reversal below net cost of service has been increased by the same amount.

1.5.7 Capital charges are budgeted to take place from halfway through 2024/25, with a full year's charge in 2025/26 onwards. These are the repayment costs for borrowing up to £4.7m for the original agreed budget allocated to the development of the crematorium. As the final decision on the direction of this project has yet to be made, it is unlikely that any spend will take place until midway through 2024/25 at the earliest, therefore only a half year's charge is included for this coming financial year. Further decisions

will be made by the Committee regarding the direction of the capital project, in February 2024, and budgets will need to be updated accordingly following that decision.

- 1.5.8 There is an increase in income of (£97,750) in 2024/25 and a decrease of income of £309,650 in 2025/26.

The increase in income for 2024/25 is due to the increase in the expected number of cremations from 2,100 as per 2023/24 Budget Setting Report, to 2,200.

The decrease in income for 25/26 is due to the opening of Shirebrook's Crematorium, which is estimated to take around 400 cremations a year away from Mansfield Crematorium. This decrease in income will impact upon the surplus to be returned to each authority in future years, as the surplus cannot be maintained at the same level if less income is being taken.

- 1.5.9 The forecast number of cremations for 2024/25 is now 2,200. Cremation fee income is based on a 5% fee increase on the 2023/24 fee of £923 taking the cremation fee up to £969 in 2024/25 (an increase of £46).

The forecast number of cremations for 2025/26 reduces to 1,800 due to the opening of Shirebrook's Crematorium. Cremation fee income for 2025/26 is based on a 5% fee increase on the 2024/25 fee of £969, taking the cremation fee up to £1,017 (an increase of £48).

- 1.5.10 The recharge to Cemeteries for Crematorium staff time has been reviewed in line with the proposed establishment budgets resulting in increases of (£2,225) in 2024/25 and a further (£1,902) in 2025/26.

- 1.5.11 It is forecast that capital charges to finance borrowing for the development of the crematorium will commence in 2024/25, with half a year's capital charge included for this year, and full-year costs for the following years. This is based on the original agreed amount of £4.626m, but with the interest percentage updated to the latest PWLB borrowing rate.

- 1.5.12 In 2024/25 a contribution of £29,126 is to be made from general reserves to the revenue account to maintain annual surplus levels of £875,000.

As mentioned elsewhere in this report, there will be full capital charges required from 2025/26, based on the original agreed capital budget, and as per section 1.5.8 above, there will also be a decrease in income from 2025/26. However, at this point, no contribution from reserves has been made for 2025/26 onwards. This shows the overall impact of the decreased income and capital charges, and enables a sustainable level of reserves to be maintained, as it would be prudent to maintain this for future spend, given that there are continued cost increases affecting all aspects of the crematorium at this time.

- 1.6 Capital Budgets – Appendix 1 provides details of the proposed capital budgets for 2024/25 – 2025/26 and the projected capital budget for 2026/27. The capital budget for the development of the crematorium remains at the original agreed amount of £4.626m, as further decisions regarding this project will not be made until the February JCC meeting.

- 1.6.1 Borrowing will be undertaken to finance the original £4.626m agreed for development costs. The capital charges budgets are inclusive of interest and repayment costs and are based on borrowing over 40 years for building works and 20 years for fixed plant/cremator costs.

- 1.6.2 The usable reserves of the crematorium comprise of general reserves and the capital fund. Table 2 below shows the forecast balances of the usable reserves for the next 3 years.

- 1.6.3 Due to the condition of the current cremators, there may be a requirement to hire temporary cremators before any new cremators become operational. A provision has been made in the general reserves for

£198,000 which would cover the forecasted costs of hiring 2 cremators for a 6 month period. These funds will only be used if required.

The levels held in usable reserves will be under review as the development of the crematorium is progressed.

1.7 VAT Implications

Each constituent authority is to account for income and expenditure between the partners on an annual throughput basis, so that each authority can account for only their share in their VAT partial exemption calculations, thus reducing the risk of an authority breaching its test of insignificance for partial exemption. Each constituent authority will need to review how the development of the crematorium will impact on their VAT partial exemption calculations.

2.0 RISK ASSESSMENT OF RECOMMENDATIONS AND OPTIONS

Risk	Risk Assessment	Risk Level	Risk Management
Financial - That the figures contained within the proposed budgets for income and expenditure is inaccurate.	That the calculations have been made incorrectly. There is a great deal of work involved in bringing the information together and errors may occur.	Medium	A quality check is undertaken throughout the process and error identified.

Reputational	That the proposed budgets damage the reputation of the Joint Crematorium Committee.	Low	The proposed budgets are reviewed by the Director/Registrar and Treasurer to the Mansfield and District Crematorium prior to recommendation to the Joint Crematorium Committee. The proposals are in line with the Joint Crematorium Committee corporate priorities.
That capital expenditure is not spent in accordance with the proposed capital budgets and will impact on the partial exemption calculation of the constituent authorities.	That the Crematorium has not budgeted for the resources to pay for additional expenditure if the 5% partial exemption calculation for any of the constituent authorities is exceeded.	Medium	Regular updates from the Director and Registrar of the Mansfield and District Crematorium are received on the capital budgets and any likely changes to these are highlighted on a timely basis for consideration of the impact on the partial exemption calculations.

3.0 Proposal/Options Considered and Reasons for Recommendation
