

**Summary of Amendments made in Response to Consultation**

Representation	Comments Received	Action Recommended
Nottinghamshire Police	No comments	None
Harby Parish Clerk & Responsible Financial Officer	No comments	None
Collingham Parish Council	No comments	None
Carlton on Trent Parish Council	<p>The councillors felt the changes were appropriate. I was asked to add that they appreciated the changes being highlighted in red - this made it much easier to consider and they asked me to convey their thanks.</p>	None
<p>Gosschalks – Licensing Solicitors</p> <p>This company acts on behalf of the Betting and Gaming Council and their response is on behalf of that body.</p>	<p>In the response there are some general comments covering the role of the Betting and Gaming Council and how they work with local authorities. The detailed comments in response to the Statement of Gambling Policy are set out below.</p> <p>Paragraph 2.2.7 indicates that there are over 370,000 problem gamblers in England but recognises that there are no local level estimates available. It would perhaps be prudent, therefore, to give the figure for estimates of the number of problem gamblers as a percentage (0.5%) rather than a national figure.</p> <p>We welcome the statement in paragraph 5.2.6 that conditions may be applied by the Authority if it is felt necessary and appropriate and where there is a specific evidenced risk. This paragraph should be expanded so that it is clear that conditions may be applied by the Authority where there is a specific evidenced risk that is not adequately addressed by the policies, procedures and mitigation measures detailed by the applicant in its risk assessment.</p>	<p>The percentage figure has been added to the Policy.</p> <p>Additional wording added.</p>
