

**PLANNING COMMITTEE – 6 December 2021**

**Schedule of Communication Received after Printing of Agenda**

5 (21/01879/FUL)	MP Robert Jenrick	01.12.21	<p>Email received to Chair and Director as follows:</p> <p>I am writing to you regarding two planning applications in Staunton Grange, after speaking to my constituent (redacted). The first application being proposed by Midland Feeds and the second being proposed on the site of Ferrell transport. (Redacted) has informed me that both are coming before the planning committee on the 6<sup>th</sup> December.</p> <p>(Redacted) expressed concerns about both applications due to the impact they could have on the community. Both applications will have an impact of traffic flow around the area, with inevitably more heavy good vehicles accessing the sites if they were to expand. Further to this, as the Ferrell site is a transport site, in continuous use, (Redacted) is concerned that the current light pollution will increase, affecting residents especially in the coming winter months.</p>	<p>The two applications referred to are this application before members and the resubmission of Midlands Feeds (recently refused by the committee) which will likely come before you at committee early next year.</p> <p>Issues raised (e.g. lighting) are covered within the report and do not need rehearsing further.</p>

			<p>I have sympathy with (Redacted) with the concerns, especially that it appears due process was not followed in the first case with the establishment of these sites, although I do recognise retrospective planning permission is open to all.</p> <p>The council should use its powers to enforce planning breaches, discouraging others attempting to go against the planning process, which from memory happening in the original cases these sites.</p> <p>I await with anticipation the decision.</p>
