The third event is held during the Heritage Open Day festival. The HOD theme for 2022 is Astounding Inventions, so the event will focus on historical inventions relevant to the castle (e.g. trebuchet, building arches) or to the local area (e.g. invention of the power loom in Marnham, MRI scanner invented by a former Magnus pupil).

### **Why is the project needed?**

After two years of social distancing and other restrictions, people are looking for opportunities to come together with friends and family and make happy memories. We found in 2020/2021 that people enjoyed taking their daily walks in the Victorian Gardens. Furthermore, recent survey data shows that local residents feel a strong sense of belonging at the Castle and Gardens, but that they would like more information about the Castle's history and want to see more events offered.

### **How will you promote and publicise your project?**

Events will be promoted through Newark and Sherwood District Council's marketing and communications channels: websites, social media accounts, tourism outlets. We will work with community partners such as Newark Book Festival, St Mary Magdalene Church, Inspire, Newark Civic Trust and Newark Heritage Forum to share publicity about the events.

### **What longer term benefits will be derived from the project?**

Newark Castle is often seen by local residents as an attractive backdrop to photos or a place to walk the dog or eat a picnic. These events will enable a wide audience to learn more about the Castle's history and its place in the town, whilst enjoying a fun, active day out. Longer-term benefits include increased historical knowledge, an increased sense of pride in one's local environment, and a greater number of local residents and tourists visiting the town centre. We hope to engage with these visitors to encourage them to get involved with further events and activities at the Castle in the coming years.
