<b>Proposed topic</b>	ASB
<b>I would like to understand</b> (key lines of enquiry)	<ol style="list-style-type: none"> <li>1. What does the data say? Where are the issues?</li> <li>2. What is within our power to reduce ASB and what schemes could be proposed in specific to the areas where the data says there is ASB issues (CCTV, lighting, space, enforcement etc.)?</li> <li>3. <b>I think this topic should be considered because</b>	<p>Please outline here why you think this topics needs consideration. For example, you may have identified an area of poor performance or be relaying several concerns from residents. Please remember a topic will not be considered unless it has the potential to improve the quality of life of residents or achieve greater value for money across at least 2 wards.</p> <p>Over the last year the level of crime is down however the level of reported ASB has increased. The effect of ASB can be profound to individuals, families and whole communities. It impacts our businesses and economy. We should examine what more we can do to help both through direct intervention and by engaging with partners.</p>

<b>Section 2: Officer Recommendation</b>	
<b>Officer comment</b>	<p>Recent surveys have shown that there is a perceived anti-social behaviour problem in the district. To add to this there are indicators that suggest that feelings of safety have reduced too. There are certainly hotspots in particular areas where this is a large concern.</p> <p>There have been a number of recent initiatives such as the 'safer streets' campaign which have helped address some of the issues. A full review</p>
