I would like to voice my concerns regarding the proposed licensing hours for the Bridge Inn at Oxton

The current noise levels at this venue are already disruptive especially during the summer months when they play music outside and have a DJ playing in an open air marquee in the field I live a distance away and can clearly hear the noise Consideration has to be taken into account for residents living closer to this venue. There are several bungalows for elderly residents within close proximity and cottages next door Aside from the noise from the music there will be the added disruption when people leave the venue, chatting, shouting, slamming car doors, revving engines etc. Due to the wholly inadequate parking at this venue which currently causes customers to double park up the Main Street to Elmcroft then this noise nuisance continues through the village We are a small country village in a conservation area not a city centre site and really do not need to attract a late bar and party venue with all the potential problems that entails

Kind regards  
Jayne Rippingale
