

Objections to the proposed Licence changes: Ye Olde Bridge Inn Nottingham Road Oxtou NG25 0SE

Everards Brewery Ltd: Application to vary a premises licence under section 34 of the Licensing Act 2003
Premises licence number 001300 . We object to the changes in licensing hours for the sale of alcohol for the following reasons:

Crime and disorder- The proposed extended hours, and projected additional customers (+ 80) will create an additional risk of late night anti-social behaviour, noise and disturbance to local residents.

Public Safety- The additional traffic generation and lack of adequate on site parking will result in parking on the road and pavement as happened over recent years (see photographs outside the pub entrance) This will impact on pedestrian safety, cause traffic congestion and increase the risk of road accidents, particularly with the nearby blind bend on Old Epperstone road.

Public Nuisance – The possible extra noise and disturbance, associated with the increased number of customers using the new multi-functional space, is unlikely to be effectively controlled to avoid nuisance. The applicant's reference to their "supervision " and " regular patrol" of the function room outdoor areas is unlikely to be effective unless the proposed supervision is specific and accountable. A responsible DPS should be named who would have a more robust supervisory role to provide the confidence needed to protect local residents.

Protection of children- the additional projected (80) numbers of customers and increased movement of vehicles may present additional risk to children playing in areas adjacent to the parking.

Please consider these objections prior to considering and determining any changes to the current Licence.
