East Stoke with Thorpe	Both	No	No	No	No	No	No		No	No	Word of Mouth	East Stoke has for many years suffered surface water flooding from the farmland to the west of the village. I have personally been active for about 8/10 years now in trying to get the issue resolved. I have spoken with many contact points at Via, Notts County Council, Severn Trent and the EA. Up until this year no properties suffered internal water ingress but now things have changed in so much as one property was completely flooded and two further properties had sub floor water ingress.

Gitton and Meering	Both	Yes	Yes	No	Yes	Flood Warden	Yes	Yes	Yes	Yes	Social Media, Whats App, Word of Mouth, email, door knock	Concerned that by Sept 24 or sooner depending on weather conditions, the whole village of Gitton will be on high alert when entering flood season. A single point of contact/team to communicate to Requests supplies in advance from NSDC prior to flooding to be prepared More effective communication between NCC and Linc CC Highways around diversion route when A1133 is flooded Prioritise replenishment of flood stores after a flood event Has a good established relationship with the EA, working with the flood forum at North Scarle as both impacted by Mill Dam Dyke Recently established a working relationship with the IDB Is there plan when landlines are withdrawn
Gunthorpe	Both	Yes			Yes					Yes		Request for an additional flood store £2k
Grassthorpe	Both	No	No	No	No		No	No	No	No		We are a very small community with limited resources. We may wish to communicate with other nearby communities to help in the case of road closures in particular. When Grassthorpe Beck is flooded we only have access to one side of it therefore we would need someone from another community to close the road from the other direction.

North Muskham	Both	Yes	Yes	Yes	Yes	Chairman of PC	Yes	Yes	Yes	Yes	Parish Website, Social Media, Whatsapp, Village email group	Need to compile or have access to a list of vulnerable persons before a flood event. The door to door warning needs to be initiated with care and not to cause distress or anxiety. We feel we are best placed to do that as a parish council and with historical experience and knowledge of previous flooding. - we would request information is passed to us to disseminate
Ollerton and Boughton	Both	No	No	No	No		No		No	No	Website, Social Media	Until last autumn community was largely unaffected by flooding, understanding why this has changed is needed. Has mainly relied on NSDC and NCC to offer support and been prepared to supplement this. Would welcome any advice from NSDC on what we should do next as we do not duplicate resources.
