

Newark & Sherwood District Council Compliance Report

2025-26 Quarter 2

Introduction

Compliance refers to the alignment of a built asset with the relevant rules, regulations, and codes. This includes the products and materials incorporated into the building, as well as the way in which they are assembled and constructed. It is important that we continuously review our compliance to identify and rectify any issues identified to keep the buildings users and occupiers safe. This report provides assurance that the Council is compliant in its three key areas of corporate compliance, housing (tenant) compliance and green space compliance.

Corporate Compliance

Corporate compliance refers to the compliance of the 25 commercial sites owned by the Council. We provide assurance on all Council-owned buildings, whether directly operated or leased to third parties (such as the Gilstrap) as the maintenance of the built asset remains the responsibility of the owner.

Risk

Alongside ensuring compliance we also monitor risk. This means we proactively identify potentially significant risks and implementing suitable control strategies helps prevent these risks from being realised, or this is not possible, mitigate to a tolerable level. This is done in two ways.

1. **Operational Risks.** These are developed and managed by Business Managers and capture localised risks. These risks are reviewed every quarter and exceptions are reported to SLT and the Risk Management Group on a quarterly basis.
2. **Strategic Risks.** These are developed and managed by Directors and are significant risks faced by the Council which have the potential to prevent it from achieving its key/agreed objectives and/or have the potential to halt or significantly interfere with the ability of the Council to achieve its core objectives, priorities and/or ambitions. These risks are also reviewed every quarter and exceptions are reported to SLT and the Risk Management Group on a quarterly basis as well as Audit and Governance Committee on a bi-annual basis.
