

To whom it may concern.

9th March 2026

I am writing to you regarding the application from Walesby Tarear to increase capacity and extend their licensable activities.

Our property is very close to the site and we can hear events as they occur. Currently this doesn't bother us but an increase in numbers and the later licence will.

The roads around the area are narrow B roads and are already in a poor state. Increasing the volume of traffic would make this more of an issue.

The manager of the Walesby site has stated the increase is purely so they

can have a girl guides event. If this is the case I do not understand why the need to change the hours alcohol can be supplied.

Over all I object to this request made to NSDC.

As a family we will be affected by the noise levels and the increased traffic in our area. When there are events on people walk into the village, there is no foot path + limited visibility as a pedestrian. We have also noticed increased litter. More events + increased numbers will only exacerbate the situation.

Many thanks
