Introduction

Our community plan (2020 - 2023) has been re-examined to take into account the changing landscape of our district post covid-19. We have seen how our sense of togetherness and community spirit has defined the district and we want to continue to support this. We have also recognised the economic impacts that have resulted from the global pandemic. We have committed to an ambitious programme of activity to engage in recovery which will strengthen our district.

Our plan sets out the Council's objectives over the next three years, building on previous published plans for the same time period. Our plan ensures the district continues to be a place where people choose to live, work, invest and spend their recreational time. The plan seeks to maintain many of the Council's objectives that you told us were important in previous resident consultation exercises, such as continuing with the high standard of cleanliness and appearance of the local environment. Enhancing and protecting our natural environment also features in our plan acknowledging the Council's declaration of a Climate Emergency in July 2019.

We acknowledge that we cannot deliver all of the elements of the community plan alone. We will continue to play a key role in strengthening our partnerships with residents, businesses, agencies and other organisations in the public sector to ensure that we full fil our objectives within our community plan.

We are also being faced with challenges such as the EU exit, the long-term effects of a global pandemic and restraint on public expenditure which will continue to underwrite the landscape within which we are delivering our community plan. We have responded positively to these challenges so far with improving service delivery, seeking new commercial activity and innovation in generating efficiencies.

Our Community Plan is a confident statement of our purpose, vision, values and objectives as we enter a new landscape post covid-19. We are committed to ensuring we are continually serving people, improving lives.

Our people and our place

55,232 homes in Newark and Sherwood

121,566 population of Newark and Sherwood

5,526 Council houses owned by Newark and Sherwood District Council

How the Council works

Residents of Newark and Sherwood are represented by 39 elected members. The political make-up of the Council from May 2019 is shown below.

Councillors are elected by the community to decide how the Council should carry out its various activities. They represent public interest as well as individuals living within the ward in which he or she has been elected to serve a term of office. They have regular contact with the general public through Council meetings, telephone calls or surgeries. Surgeries provide an opportunity for any ward resident to go and talk to their councillor face to face and these take place on a regular basis.

Councillors appoint a Leader and Deputy Leader to provide political leadership and direction for the Council as a whole.

Each year, Councillors also appoint a Chairman to undertake civic responsibilities on behalf of the whole Council.

All Councillors meet together as the Full Council and these meetings are open to the public.

Our funding

Over the past decade, the amount of funding available to Newark and Sherwood District Council has reduced significantly. Central Government funding for Newark and Sherwood District Council has reduced from £7.5 million in 2014/15 to £4.1 in 2019/2020 representing a 45% reduction in core funding.

Therefore, in order to continue to deliver high-quality services, the Council has re-organised its operations in order to reduce expenditure and increase its income. Further details of our plans to generate additional income can be found in the Commercial Strategy and Investment Plan. Further information on service expenditure can be found in [Newark and Sherwood District Council's annual Statement of Accounts](#).

The diagram below provides a breakdown of how Newark and Sherwood District Council activities were funded for 2019/2020.

Our vision

Newark and Sherwood already has much to be proud of. With its captivating history, beautiful countryside, characterful market towns, world renowned businesses and an enviable location at the crossroads of the country's transport network. We want to do all we can to enable local residents and businesses to flourish and fulfil their potential as well as encouraging more visitors to enjoy all that Newark and Sherwood has to offer. In order to achieve these, we will be locally focused and nationally connected - driven by what matters most to the people we serve and with a perspective and relationships stretching well beyond our boundaries.

Our purpose and our values

We want to serve our local community the best way we possibly can. As public servants we place a great emphasis on adopting a public sector ethos and seek to embody this in the way that we interact with you and with each other. Our performance

Performance Management is a set of processes that measures, analyses and aims to improve performance to enable us to deliver our objectives and meet the needs of our customers and our district.

We measure performance at a variety of levels including corporate (whole council), service (specific business units) and individual (employee). Targets are agreed for each level and are incorporated into our performance management system.

Regular reports demonstrating how we are performing against our Community Plan are presented at Committee and published on our website.

The following diagram represents how the three levels of performance management interlink.
